

Lab Work Pricing & Insurance

Northwestern Health Labs handles our blood work.

- **To avoid issues, check your insurance coverage for blood work in advance.**

At Green Circle Wellness, we run many specialized labs, often resulting in higher insurance bills.

- If you receive a bill from Health Labs (over \$1K), email it to info@greencirclewellnes.com. We will work with our representative to reduce it, though there's no guarantee it will be reduced to \$0.
- Do not pay the bill until we have reviewed it.

The billing process can take 3-6 months, so please be patient and ignore any further bills if we've confirmed we're working on it.

Out of Pocket Labs & Cash Pay Patients

If you do not have or do not use insurance:

- Out of pocket costs for a full blood work is \$275, NutrEval out of pocket is about \$429

Outside lab costs:

- Stool test is \$370 (paid to GCW), Mold test is \$380 (paid to Vibrant America), ZRT hormone saliva test is \$130 (paid to ZRT)
